Dissemination and Exploitation Plan N.1

The Dissemination and Exploitation activities are implemented within WP6 “Dissemination, activities and exploitation roadmap” which aims to ensure scientific, social and economic impacts based on the results of the HEALTH-CODE project. The related tasks are:

- Task 6.1 – Dissemination activities;
- Task 6.2 – Knowledge Management and IPR;
- Task T6.3 – Exploitation strategy of the results;
- Task 6.4 – Education and Training.

Dissemination is intrinsically linked to exploitation in the sense that efficient publicity is a facilitator of the exploitation of these results beyond the project lifetime. Moreover dissemination allows to measure acceptance of the proposed concepts and reuse of them in other projects.
