

- Public Abstract -

Deliverable D6.3

Dissemination and Exploitation Plan N.2

This deliverable gives an update of HEALTH-CODE dissemination and exploitation plan at M17. Below are describe the dissemination activities performed since the first Deliverable (D6.2).

The Fuel Cell and Hydrogen 2 Joint Undertaking (FCH 2 JU)

Review Days:

The HEALTH-CODE project was presented at the FCH-JU Review Days on 22 November 2016.

The poster and presentation are available here:

- http://pemfc.health-code.eu/upload/healthcode/document/193_FinalPosterPRD2016.pdf
- http://pemfc.health-code.eu/upload/healthcode/document/193_HEALTH-CODE-20161122-PRD2016.pdf

Fundamentals & Development of Fuel Cells, 2017:

The HEALTH-CODE project and first results was presented at the conference in Stuttgart.

Other activities have been initiated and will be disseminated soon:

- 2 journal papers dealing with state of the art of diagnostics techniques and PEMFC faults, respectively, are being written as a result of the several bibliographic works performed since the beginning of the project.
- A workshop will be organized during the international EUROPEAN PEFC & ELECTROLYSER FORUM (Luzern, CH) jointly with the FP7-FCH JU project DIAMOND, which deals with diagnostics and control for SOFC.
